University of Oregon
Portland, Oregon 97201

Scott Grundy, 1982
Michael C. Schotz, 1983

Dr. Robert C. Hockett
Research Director
The Council for Tobacco Research-USA, Inc.
110 East 59th Street
New York, New York 10022

Dear Dr. Hockett:

The 1981 Deuel Conference on Lipids will be held March 11 to 14 (tentative dates) at the Highlands Inn near Carmel, California. Dr. William E. Connor, Program Chairman, has announced a tentative program which will include:

Nutritional aspects of Lipids
Effects upon lipoprotein transport
Essentiality of $\omega 3$ polyunsaturated acids
Effects of $\omega 3$ and $\omega 6$ acids upon prostaglandins
Relationships between $\omega 3$ and $\omega 6$ acids
Platelet function and $\omega 3$ acids

The current leaders in each area will be the speakers.

Because of past support from The Council for Tobacco Research for Deuel Conferences, we are informing you of the program for the coming conference, and we are soliciting your support for the 1981 conference. Deuel Conference policy is that donors of \$1000 or more have the privilege of sending one or two representatives to participate in the conference.

We wish to emphasize that the Deuel Conference maintains an informal atmosphere, encourages free and open discussion, and is a forum for the presentation of new and unpublished data in rapidly developing new fields of research. These features make the Deuel Conference a unique experience.

For your information, I enclose a brief description of the Deuel Conferences and a copy of last year's program. We would be grateful for your early decision on support for this year's conference. If you are able to support the conference, the check should be made payable to "The 1981 Deuel Conference" and sent to my attention at the Hormel Institute.

Sincerely,

Ralph T. Holman, Chairman
Funding Committee
